

DAILY RECORD

SATURDAY, NOVEMBER 15, 1873.

The Business Office of the DAILY RECORD is located in the office of H. E. Brinkley, at Michael's corner, Main street, opposite Meadow Valley.

CALIFORNIA POLITICS.

With three different parties in the State Legislature, and these nearly equal in numbers, a coalition is indisputably necessary to the working of the coming Legislature of California. A coalition between two of the three parties cannot be avoided, however much people may disclaim combination. The coalition must be (1) between Republicans and Independents; (2) between Democrats and Republicans; or (3) between Democrats and Independents. With two Senators to elect, there would be little difficulty in effecting a compromise; but under the circumstances the party which secures the Senator must be recompensed by a control of the greater portion of the offices in the gift of the two Houses, together with liberal promises of support in the future. A coalition between Republicans and Independents is, as we have before said, impossible; the hostility between these two parties is too much like that between the Douglas and Breckinridge wings of the Democracy for that; and the gulf between Democrats and Republicans (as political parties) can never be spanned. Then the only coalition to be effected is between Democrats and Independents. On this subject, we clip the following from the Sacramento Union:

The Placer Herald, an able and honest Democratic paper, remarks on the proposition of some Republicans and Democrats in the Legislature to elect a United States Senator, that it is "an absurdity and not entitled to consideration from honest Democrats." It favors a coalition between the Democrats and Independents, and thinks that "the ends for which Democrats are contending can be most speedily accomplished through an independent organization." It adds, that "every live issue of the Democracy is embodied in the principles of the Independent party." "Indeed," says the Herald, "this party is the Democratic natural affinity if he be honest; and if he is not honest he will find his affinity in the Republican ranks." The Herald expects to see a coalition of Democrats and Independents in the coming Legislature, but of Democrats and Republicans never.

An article from the Mountain Democrat, (Placerville, Cal.) relating to this matter will be found on our first page.

TALKING MACHINE.—Prof. Faber, of New York, has arrived in San Francisco, having with him a machine he has invented, and which he claims can be made to speak any word or sentence whatever. He intends to give a series of exhibitions in that city. He is under pay from Barnum, and is the inventor of the talking machine so successfully exhibited by that great showman.

The Woman's Journal announces that a "Working Women's Mutual Benefit Association" is soon to be organized in Boston, to be with objects similar to those of the Masons and Odd Fellows.

The Chief of the Boston Fire Department has signed the pledge, and issued an order for every man in the department to do the same or resign.

MANTON MARBLE paid \$100,000 for the last quarter of the World's stock.

Telegraphic Dispatches

SPECIAL TO THE POCHE DAILY RECORD.

Eastern Dispatches.

Tweed's Case.—Emigrants from America to Europe—Sympathy for Cuba, Etc.

New York, Nov. 14.—Tweed's case opened this afternoon for the prosecution by Penhman.

The Brooklyn Board of Public Works put 500 men to work to-day.

It is rumored in Wall street that a meeting of influential American sympathizers in the cause of Cuban independence was held at the Astor House this afternoon. A committee was appointed to arrange for a grand mass meeting at an early day.

Officers of the German steamer King William, which sailed yesterday, and the Cambria, which sails to-day, received a large number of applications from emigrants who had come out by them, and who had been unable to procure employment, to work their passage back, some of them offering all the money they had left for the privilege. Such a thing has never occurred before, and the officers have taken as many as possible, though they have been able to employ very few of the numerous applicants.

Some officers at the Brooklyn Navy Yard profess ignorance in regard to the receipt of orders from Washington, but at the same time every man that could be was obtained to work on the vessels Powhatan, Kansas and Junia.

The Kansas received a supply of stores this afternoon, and it is thought she will sail to-night. The Junia will be ready to sail to-morrow night.

WASHINGTON, Nov. 13.—Arrangements are making for a public meeting here to give expression to the popular sentiment in regard to late events in Cuba.

BALTIMORE, Ga., Nov. 13.—Yellow fever has broken out here again. Six new cases are reported, also the death of Lewis T. Seymour.

The Fever in Memphis.

MEMPHIS, Nov. 14.—Two yellow fever deaths to-day; both cases of relapse. No new cases are reported. Air cool and bracing; streets lively.

Our Affairs with Spain.

WASHINGTON, Nov. 14.—In reply to a dispatch to the Secretary of State to Consul General Hall at Havana, to inquire into the report of the wholesale execution of the Virginian crew, officers and passengers, and to enter a protest against the haste of the trial in the face of orders from the Madrid Government, Consul Hall replies that the Vice Consul had already protested in the strongest terms against the proceedings, but that his action was seriously obstructed by the Spanish officials. All avenues of communication were closed against him, the telegraph line between Santiago and

Havana being interrupted. Immediately on receipt of Consul General Hall's dispatch, the Secretary of State instructed Minister Sickles to enter with the Spanish Government a strong protest against the proceedings at Santiago, characterizing them an outrage on civilization and humanity and an insult to the American Government. General Sickles replied that he had had an interview with the Minister of Foreign Affairs, and acted in accordance with orders, and further that the Spanish Government, duly impressed with the responsibility, had promised to act in such a manner as to show its disapproval of the proceedings at Santiago, and at the same time show its friendship for this Government.

The President being restrained by the Constitution and laws from making war on Spain by attacking her colonies, all that can now be done is in the way of correspondence with the Madrid Government. The official papers are to be laid before Congress for such action as may secure the dignity of the nation and the vindication of its honor and full protection to its citizens. The Government, however, in the meanwhile, is making ready to meet all issues which may arise, even if they should require force, and this fact is apparent in the present naval movements.

The Kansas has been ordered immediately to Santiago de Cuba, and will be commanded by Commander A. V. Reed. In addition to this vessel and the Mahopac and Manhattan (ironclads), the Powhatan and Osippi will also be ordered to active service in the North Atlantic squadron.

Cuban Meeting in Philadelphia.

PHILADELPHIA, Nov. 14.—A large meeting of Cuban residents of this city was held this evening, the President of the Philadelphia Junta, M. A. Montejó, presiding. He, with others, made an address, laying great stress on the Virginian outrage. General W. F. Small and Captain Powers, well known military men of this city, after making addresses, offered their services to the Cuban cause, saying they would raise, if necessary, 10,000 men. Great enthusiasm prevailed. A subscription list was opened, and several hundred dollars subscribed, and watches and chains presented by those who thought their cash subscription were not heavy enough. One Cuban presented his horse and carriage.

More About the Virginian—War with Spain Inevitable.

NEW YORK, Nov. 14.—A Washington dispatch says news has just been received there that the rest of the crew and passengers of the Virginian have been shot, making 111 in all, and it is semi-officially reported that demands have been made by this Government on that of Spain of such a nature as will be impossible for Spain to accept, and must result in a rupture between the two countries, and that these demands have been telegraphed to Minister Sickles.

WASHINGTON, Nov. 14.—It can be stated on official authority that while the present naval preparations do not mean war against Spain or Cuba, they are significant of a determination of this Government to protect American interests at any hazard and prevent in future such massacres as those which followed the capture of the Virginian, as nothing effective can be depended upon from Spain, notwithstanding her friendly feeling toward the United States. It has been determined hereafter to meet all questions practically as they arise, instead of depending on Spanish officials for the transmission of communications from our Consuls either by letter or by telegraph. Our naval officers will be instructed to inquire diligently and closely into the condition of affairs on the island, and promptly report the facts to the proper Department. Our Government is now waiting to hear what the Spanish Government will do in response to our earnest protest against the outrage perpetrated against the victims of the Virginian.

New York, Nov. 14.—Walter Stuart, who says he has every reason to believe that his brother, Col. G. C. Stuart, is among the slaughtered passengers of the Virginian, offers to pay liberally for any information concerning his fate.

The United States steamer Kansas sailed to-day for Santiago.

Foreign News.

News from Canada and Mexico.

OTTAWA, Nov. 13.—Rathery, British Fishery Commissioner, has left for New York and Washington. He had several interviews with the late and present Minister of the Fisheries. The Commission will meet at Halifax.

The Toronto Conservatives have nominated Sir John A. McDonald to represent the Western District of Toronto in the House of Commons, a seat having become vacant in consequence of the appointment of Crawford to the Lieutenant Governorship.

New York, Nov. 14.—A special to the Herald, dated City of Mexico, Nov. 11, says: The Revolutionary Government near Taluca, which pronounced against the new constitutional reforms, has been dispersed and the movement suppressed with the loss of 350 lives.

The London Journals on the Virginian Affair—Famine in Greenland.

LONDON, Nov. 14.—The steamship Ait, of Montreal, arrived at Queenstown to-day, with the disabled steamship City of Richmond in tow. All well.

The shooting of the crew and passengers of the steamer Virginian is commented on at length by the evening journals, all of which express the hope that the executions will be avenged by the United States Government.

Intelligence is received here that a famine prevails in Greenland, caused by the failure of the fisheries. In one village alone 15 persons have starved to death.

Pacific Coast.

Sheriff Adams' Affair—Accidental Death.

SAN FRANCISCO, Nov. 13.—Sheriff Adams declines to comply with the Auditor's request to pay over to the County Treasury the fees collected by him as mileage, and which it is claimed he illegally holds. The Sheriff says his legal

advisers counseled him to pursue this course, and that he is anxious for some legal decision in the matter.

Patrick Barr, watchman at Mail Dock, was killed by a coal cage weighing about 1,500 pounds. It is supposed he was caught on the platform where the cage is landed while in a fit of some kind. He leaves a wife in the city.

Weather at present clear.

SAN DRAGO, Nov. 13.—To give foreign horses a chance to get here and prepare for the races, the meeting advertised for this month has been postponed to the 31, 4th and 5th of December. Two horses are now on the track in training order. The races will be a grand affair.

Anti-Chinese Convention—Trial of Harris—Blaze.

SAN FRANCISCO, Nov. 14.—The Anti-Chinese Convention closed its labors late last night, after adopting a preamble and resolutions denouncing Chinese labor and immigration, and praying the President and Senate to amend the Chinese treaty so as to make it wholly commercial, or abrogate it altogether; praying Congress to pass laws for the protection of our people against the ruinous competition with the Chinese; denouncing the Chinese as filthy in their habits, corrupting in their influence; who bring no families with them, adopt few of our customs, and crowd our country with servile laborers imported from China under contract. The attendance last night was very slim. The proceedings, beyond the debate on the resolutions, were uninteresting.

The trial of Frank Harris, mate of the ship Sunrise, was resumed to-day, with the examination of Furt, witness for the prosecution.

It is reported that Sheriff Adams to-day will pay to the Auditor all moneys held by him as fees claimed to have been illegally withheld by him.

Weather fair, with promise of splendid weather for to-morrow's race.

True Blue and Thad Stevens remain the favorites; they are about even among betting men.

Greenbacks 91@92.

A report is current on the streets that Makin, Hubback & Co., shipping and commission merchants of this city, have failed. The firm has been in business in this city several years.

GILROY, Nov. 14.—Advices were received here last night that the store of Mr. Jones, at Melerton, on the San Joaquin, was robbed by seven masked men, on last Monday night. The robbers entered the store, tied and gagged seven and eight hundred dollars. It is supposed that it is some of Tiburcio Vasquez' work.

SAN FRANCISCO, Nov. 14.—Everything is propitious for the great race to-morrow. Weather fine and the track in good condition.

J. W. Winter has sued the Belmont Mining Company, claiming \$10,000 for loss of mining stock, which plaintiff alleges was stolen from him.

Sheriff Adams paid over to the Treasurer to-day \$4,113 on account of fees he was charged with withholding illegally.

The ship William and Thomas, which left Port Townsend in December last, became water logged at sea, put into Easter Island and is a total wreck. Officers and crew saved.

Highly Interesting News.—The Latest.

CHERRY CREEK, Nov. 14.—This morning Quigley, who had been engaged in a shooting affray yesterday, returned to fix up his house and found some one had been occupying the lot last night. He proved to be a man named Fitzpatrick, who had been engaged by Norton to hold the lot for him. While at work Fitzpatrick returned and Quigley asked him what he was doing there. He replied that the lot belonged to him. Quigley led him from the place, but he immediately returned, and as soon as he came on the lot again blows were given, Quigley striking Fitzpatrick in the face. Fitzpatrick drew a pistol and fired two shots at Quigley, who returned the fire, firing three shots, one of which struck Fitzpatrick above the forehead, entering the brain and coming out at the back of his head. Public opinion is in Quigley's favor. Fitzpatrick has since died.

SAN JUAN SOUTHERN, CAL., Nov. 14.—By the arrival of the stage from New Idria, we learn that there was a sheep-herder murdered near New Idria on the 12 inst. by two men; one of them is Chaves, the companion of Vesquez. The man was shot six times and then Chaves cut his throat. Chaves escaped, but the other was taken and tried by the people. The man confessed all, and was hung.

SACRAMENTO, Nov. 14.—A heavy north wind has been blowing all day.

Four cars were attached to the Vallecito train this afternoon, all of which were well filled with visitors to the great race. A further delegation will go down by the early train to-morrow.

UNLUCKY WALLPAPER.—Several years ago, when the Wallapa Indians were the terror of Mohave and portions of Yavapai county, in this Territory, a party of troops tried to dialogue a war party of Wallapa from a very strong position, near the Cottonwoods, on the road leading from the Colorado to Prescott. To do this, it became necessary to shell our "brethren." Now, the shelling apparatus then possessed by the troops was an insignificant one, but it threw shells, and had the desired effect. One of the said shells (unexploded) was recently found by a tramping party of Wallapa. Curiosity, or something else, led them to carry the shell to the camp and place it upon their fire. Around it were gathered several Indians, watching developments, when off it went, killing two Indians, blinding two and wounding several others. Since this unlucky attempt to solve a white man's mystery, the Indians who were eager to trade for guns, powder, lead, etc., do not mention these things and show signs of squeamishness upon beholding them. Mr. Calvin White, who informed us of this "accident," saw the wounded Indians and said they were suffering frightfully, regardless of the ear-piercing noise the medicine men were making on tin pans and other harrowing instruments. The report of the shell was heard by the men at one of Mr. White's mail stations, about two and a half miles from where the shell exploded.—[Arizona Miner.]

There is to be a grand masquerade ball at Eureka on Christmas night.

The instruments for a new brass band at Carson have arrived.

NEVADA STATE ITEMS.

Amber midnight last Saturday night, says the Virginia Enterprise, a frenzied Mongolian lover attacked a country-woman of his in the Chinese quarters of this city, with a murderous knife, the blade of which was nearly two inches broad. He literally ripped the poor woman up, the knife entering her abdomen, severing some of the intestines, and penetrating the liver. The woman, lying in frightful agony until about 8 o'clock last Sunday evening, when death ended her misery. The murderer has not yet been found, his friends doubtless having run him off. It is said that he was second cook at the Delmonico Restaurant. For some reason the woman was buried before the Coroner was notified of her death, and no inquest was held. Rather a loose way of disposing of a murdered human being.

The Enterprise says: The Sierra Nevada Company are about to sink a new shaft and erect new hoisting works. The new works will be about 1,000 feet further north and 1,000 feet further east than the present works. The new shaft will be sunk on the point of the hill, just south of the Jewish cemetery. The property is already been made, and workmen were yesterday engaged in grading a wagon road from the Geiger Grade to the site selected for the new works. The works will be wholly new, and the machinery will all connected with them will be first-class. The old works will remain as they are and will be in no way affected by the improvements now about to be made in a new and more promising locality.

Judge Harris of the Second District Court yesterday, says the Virginia Chronicle, of the 10th, gave the Virginia and Gold Hill highwaymen, burglars and thieves, Tracy alias Bob Berry, Buck alias Burke alias Gallagher, and Slattery alias Platter (the trio who assaulted and robbed Rodini on the highway in Carson, on the 11th of last month) a salty but justly merited dose of State Prison. Bob Berry got seventeen years, James Burke fifteen, and William Slattery ten years. This will keep them out of mischief for some time.

The Dr. W. C. Ames, who died in Hongkong, China, on the 18th of September last, was formerly and for several years a druggist's clerk in this city, says the Virginia Chronicle, having been with Morrill and subsequently with A. M. Cole. He was married in this city about six years ago, went into the tailors business in Seven-mile Canyon, and left for White Pine in the latter part of 1868, and went into the drug business on Treasure Hill with Dr. A. C. Gordon, husband of Laura de Force Gordon.

ABOUT 3 o'clock yesterday afternoon at the Utah mine, says the Enterprise, the cage fell to the bottom of the shaft, a distance of 300 feet. It crashed through a platform at the bottom, and threw a plank in such a manner as to severely injure the left ankle of Robert Walker, who was working below. It was at first supposed that the ankle was broken, but Dr. Grun, who was called to his assistance, found that it was only severely sprained. It was lucky that no one was killed.

The Eureka Sentinel, of Thursday, says: Dan, Morgan, Tommy Douglas and Jimmy Duker left yesterday on a tour of inspection to the Cherry Creek country. P. H. Dodge, of the adobe boarding house, took them out in a four-horse stage; and by the way we may mention in this connection that Mr. Dodge intends making regular weekly trips hereafter. The parties above named will be absent about ten days.

ANOTHER attempt has been made to fire the town of Eureka, about which the Sentinel says: A quantity of rubbish in the rear of Old Fellows' Hall had been saturated with coal oil and the torch applied. There can be no doubt about the coal oil, for all who gathered around were positive that they could smell it. A few buckets of water promptly applied extinguished the fire before much damage had been done. Somebody's neck is aching for a rope.

A CRAZY MAN, John Alexander Burnes by name, 50 years old or upwards, from Esmeralda county, was examined and committed yesterday, says the Carson Appeal of Tuesday, by Judge Harris. Don't know what made him crazy; but he complains of having to pay the national debt and that it takes all his pocket change to do it. No wonder he has gone mad, if that idea has hold of him.

The report that a case of small-pox had broken out in the city prison put everybody on their good behavior last night, says the Chronicle, and not a single arrest was made by the police. As the alarm was a false one, we presume the pent-up devilry of the hoodlum element will break loose with renewed energy this evening and the police will have their hands full.

C. F. HORN, U. S. Land Register, left Eureka for the East on Wednesday. He was accompanied by his family.

JACKSON rabbits are plentiful in Sierra Valley. The Enterprise says 240 were received in Virginia the other day.

A RAIL will be given by Knickerbocker Engine Company No. 5, of Virginia, on the 27th, its ninth anniversary.

The burnt district on the Divide, between Gold Hill and Virginia, is being rapidly rebuilt.

The Appeal applauds Judge Harris for the rigor with which he enforces the law against malefactors.

BIG ARMIES AS THE PRICE OF GLORY.—The German army of defense makes up a pretty formidable peace establishment. It consists of 625,720 men, 576 field guns, 56,250 horses. Of course these figures would be greatly increased in the event of war. The fearful burden upon the tax-paying people of such a force, with no prospect for a change unless for the worse, can best be conceived when you consider that the rebellion left our army had been permanently enrolled and kept constantly recruited by an impartial and merciless conscription. Americans have cause enough for gratitude in their separation by an ocean from powerful and warlike neighbors.

HOW THE EMPEROR OF RUSSIA HAS TO WORK FOR A LIVING.—When the yellow flag with the double-headed eagle of Russia in the center flies from the flag-staff of the Kremlin palace it announces to Moscow that Alexander, the emancipator, is in the ancient chapel of his vast dominions. Constitutional sovereigns lie on a bed of roses compared to the autocrat of Russia. From him everything hinges in the country, that contains eight millions of statute miles; with him moves the entire machinery of State, and always on the move his majesty is obliged to be. Trained in the severe school of the Emperor Nicholas, Alexander II. never allowed himself a moment's relaxation. It is known that his passionate soldier the Emperor of Germany is, how he will even attend the drills of a single company. The Emperor of Russia, though, goes from review to review, from field days of five thousand men to field-days

of special arms, from the target practice of a few non-commissioned officers to a maneuver of the fleet. Now in Poland, now in Tarskoe Selo, now at Constand, now in the Caucasus, and all at once in the Crimea. Always soldiers, soldiers! He himself is never out of uniform, and none of the ministers ever discard their epaulettes. The Imperial suite is, of course, enormous. But to-day, his Majesty is at Moscow; to-night he proceeds to the Crimea. In the train the Minister of the Interior will probably see him with innumerable papers for signature; the Minister of Finance, of Justice, or of Foreign Affairs, will disturb the Imperial rest. Such is it to be an Emperor; and how many there are who would give a whole lifetime for five minutes in such a position! For five minutes it may be pleasant, but it is questionable whether a longer experience would not bring about a change of feeling.—[Army and Navy Gazette.]
